Considerable Broad Changes
This edition of the National Standards for Quality Online Teaching has some significant changes in comparison to the previous releases.

1. Titles have been assigned to each of the Standard Areas.
2. Criteria previously listed under each standard as either “Teacher Knowledge and Understanding,” and “Teacher Abilities,” have been reworked and presented as measurable “indicators.”
3. Indicators under each standard have been labeled in order to make them more easily identified.
4. Each indicator has associated “Explanations” and “Examples” for further clarification.

Considerable Standard and Indicator Changes
1. Standard A has been reworked to focus on Professional Responsibilities, instead of instructional practices.
2. Standard D has been reworked to focus on student engagement through varied strategies, recognizing that feedback, while important, is not the sole engagement mechanism.
3. Standards G and H have been combined to create the new standard G, entitled “Assessment and Measurement.”
4. Standard I has been removed and reworked into standards A, D, and G.
5. Standard J has been removed and reworked into standards A, D, and F.

Changes to the Standards and “indicators”
The changes described in this document are not an exhaustive account of all the changes that were made to the National Standards for Quality Online Teaching, Third Edition. In some cases, “Teacher Knowledge and Understandings” (TKU) and “Teacher Abilities” (TA), have been folded into the indicator explanations and/or examples. Always read the indicators and accompanying explanations and examples completely and carefully when applying the standards to your specific situation.
